## Oxygen Sensor Bungs Factory Direct

Made in America  
By Americans  
With American Steel

**CNH Machine** Has produced over 2 million O<sub>2</sub> Sensor bungs. We are now offering our products direct to OEM and wholesale distribution.

**CNH Machine** Has the production capabilities to offer quantities from 500 to 500,000. We are a mid to high volume production facility with the capabilities to manufacture to design. We have stock units available in multiple industry standards for both O<sub>2</sub> weld bungs and plugs. We offer both steel and stainless versions of any product. Excellent Project Engineering and design assistance.

**Committed to Quality**  
with continuous improvement.

All products shown have the industry standard 18 mm thread and are weldable.
